Attempt of Behel Officers to Escape From Johnson's Island.

The Sandusky Register, of Friday morning, says that General Archer, General Jones, two Caplains and one civilian, prisoners on Johnson's Island, attempted to escape from the Island on Thursday night, by bribling the guard, and communicated to the officer of the day in advance, so that the final matter was snything but tragte. The guard permitted the men to escape from the enclosure and to reach a certain distance away, where they paid over the agreed sum, \$200 to each of the guard. Greenbacks being short, the amount was eked out with two gold watches. One of the guard received \$150 and a gold watch, and the other about the same. As soon as the guid pro quo was handed over, the cursain dropped, other acts came on the stage, and the five adventurers were ordered back to their old quarters—minus expenses. Clearly that experiment did not pay.

[From our Special Correspondent.]

Sr. Louis, Dec. 84, 1883.

The suggestion of a compromise in Gen. Schodeld's case by which he is to be removed from command of this department on condition of being confirmed into a Major General is infamous. It is quite as bad as the story circulated here a few days ago that Grais Brown was a Bair man, and had promised to vote to confirm Schodeld. Schodeld's record is pro-slavery from beginning to end. He has never made a concession to the real emancipation party of this State that was not wrang to be his, but professes not to know how hit came there.

The Flour market was more active, but the transactions were mostly private. There is no improvement, however, to note in prices.

The Wheat market opened flat and lower, but before the close it rallied and advanced to per bushel-with moderate sales, at \$1.108/h.17ky for No. 18 pring, and \$1.0801.105 for No. 2 Spring—the market closing at \$1.10 for No. 2 Spring. picions that Beil had taken the money, and this served to widen the breach between the the morning of the 22d instant Mrs. Briden, her daughter Almeda, who is attending school at weaconds, and Mr. Beil, breaked logether. The daughter-wished to grateful digether, but daily to be a strength of the standing school at weaconds, and Mr. Beil, breaked logether. The daughter-wished to grateful digether to stay at some, but dhally consented that she might ge. Shortly after Almeda had reached the school house, word was brought to her that her mother had been murdered.

Between 7 and 8 o'clock of the morning indicated, a daughter of Mr. Morley, a neighbor, heard the cry of murder, and informed her father that Mrs. Briden was hallooing murder. Mr. Morley thought the fally conceded with his work; but he shally conceded with his work; but he shall be an anywork of his call. He then went into the cow-yard, where he found the body of Mrs. Briden's and see if anything was the matter. On reaching the house he found it locked and no one to answer to his call. He then went into the cow-yard, where he found the body of Mrs. Briden's had been engaged in milking, and had milked about a quart, when she met her death. Her body was lying on the right side, with her throat cut and a ranor placed in her hand. The edde of her face and head bore marks of having received blows from some flat instrument—supposed to be the head of an are. There evidently had been no struggle after she received the blows.

Supplied at the was chopping wood in the door, yard at the time Almeda eff for school, but a few minutes before the murder, and that track about the body were traced to Mr. O son Cadwell's premises, where Bell was cuopping, and found to Corres market closing at \$1.10 for No. 5, and \$1.17 for No. 1 Spring.
There was scarcely any inquiry for Corn to-day and the market was dult and lawer—with trilling sales of No. 1 Corn at Spc., and of New Corn at Spc. In store.

Onts were in good request and firm, but not so active as on Saturday—No. 1 selling at \$55,050,00. and No. 2 at \$25,000,000. And No. 2 at \$25,000,000. Rye was in limited demand, and we note light sales of No. 1 at \$1.00 and No. 2 at \$1.01,00. Barley was dull and 16,900 lower, with light sales of No. 5 at \$1.01 at 15.00 and No. 5 at \$1.01,00.

PERLIFOTON, DOC. 33, 1860.

I have just come in from Ostumwa. I find that the opinion there is that there will be a decidedly short crep. Mitchell & Ladd are the only packers there, and they will pack this sessem 0,200 hors, against 4,200 last year. The agent of the Burlington and Missouri Heilroad thinks there will be a fide horsy set to come forward; but I think he is too high in his estimate. About 1,200 hops crossed the river to-day. West of us the reads have been snowed under for come line; but now the weather is fine and the reads good, and everything will come forward. Mischell a land with close thas well.

We have carefully examined the work and noticed their gradations, and can pronounce them to be just what is needed to lead the pupil onward to a perfect knowledge of this instrument, the most difficult in which to excel. By the way, those who want to precure a good instrument cannot do better then to inspect the extensive atock of Messer. Root & Cady, No. 35 Clark street.
